1. AIMS

Due to the circumstances brought about by the pandemic, the 2020 edition of the Digital Photography contest aims to contribute to changing how we relate to the sea and others. It also aims to encourage changes to be made in our use of the beach, as well as our social and environmental behaviours, while always valuing the natural heritage that surrounds us and seeking to stimulate the creativity of those who dedicate themselves to the pleasure of capturing images.

2. THEME "BACK TO THE SEA, WITH A NEW ATTITUDE."

For this year's edition, the theme suggested by the European Blue Flag Association "Back to the sea, with a new attitude" calls for images that testify to a new approach to looking at and enjoying beaches and the sea. With a basis on the care that should be taken over maintaining safe distances and implementing individual protective measures during the pandemic, a focus is also placed on the ongoing need to protect our ocean environments. And these actions are not limited to behaviours while on the beach; everything we do at home, at school, at work, and while we're out and about makes a difference, which means that every day, we can work to protect the sea according by following the motto "The Sea Starts Here, The Sea Starts with You!". All photos must be taken within the municipality of Lagos.
